## OBJECTIVE

Motivated and detail-oriented undergraduate at IIT Madras pursuing a BS in Data Science and Applications, seeking a Python Developer Internship to apply strong programming, problem-solving, and analytical skills. Eager to contribute to impactful software projects using Python, leverage hands-on experience from academic and personal projects, and grow within a dynamic team while deepening expertise in software development and data-driven solutions.

## EDUCATION

### 2024-2028

Indian Institute of  
Technology Madras

### Bachelor of Science (B.S.)

Currently in the Diploma level of the program; completed a project on Modern Application Development using Python and web technologies.

### 2012-2024

Kendriya Vidyalaya

### Senior Secondary School

Studied from 2012 to 2014 with a focus on science, mathematics and computer science; developed strong analytical and problem-solving foundation.

## SKILLS

- Python
- Problem Solving
- Bootstrap
- Flask
- SQL
- Communication
- Django
- Vue.js
- Leadership
- Full Stack Development
- Javascript

## PROJECTS

### STUDENT STUDY PORTAL

A full-stack web application developed using Django that provides students with a centralized platform to manage their academic tasks and resources. Key features include notes creation and management, homework tracking, YouTube and Wikipedia search integration, dictionary lookup, unit conversion, book search, and a contact form for communication. The portal streamlines student workflow by consolidating essential study tools into a single, user-friendly interface.
